Subject: Draft Guidelines for the conduct of regulatory analysis

Dear OMB,

I object to the **Draft Guidelines for the Conduct of Regulatory Analysis and the Format of Accounting Statements** for the following reasons:

1. It is **unethical to set a lower value on the lives of senior citizens**. Our grandparents are as valuable as any other generation.
2. This policy is **not based on sound science**.
3. It could **weaken anti-pollution regulations** harming the health of all Americans.

Thank you for considering these comments.
