**Subject:** EPA's F019 Proposal

Ruth,

Thanks for taking the time for talking, albeit briefly, with Terry Behrman and myself. We have been talking with EPA for over 11 years on the matter contained in this rulemaking. We have not been able to get EPA to discuss any of the concepts in this proposal with us, so the only message we wanted to deliver to you was to please make sure this rule is not your lowest priority. After all of these years, we would like to see this proposal sooner than later, so that we can comment on whatever EPA proposes in it and move on toward working with EPA on a final rule.

Thanks for your time.

*Greg Dana*
