Subject: EPEAT FAR Case and proposed OFPP policy letter

Thank you for the opportunity to review the proposed policy letter regarding acquisition of green products and services. TVA has no suggested comments or additions. TVA currently has a Green Procurement Policy and Plan in place and will continue efforts to assure compliance with E.O. 13423 and the 2005 Energy Policy Act, including the specific provisions outlined in this proposed policy letter to use the Electronic Products Environmental Assessment Tool (EPEAT) when acquiring desk top computers, laptops and monitors.

If you need additional information, please contact Aaron Nix at 423-751-7175.

Thanks

Aaron Nix
